INTRODUCTION

With over 40 years of construction, development and growth, now Corporations Glass and Ceramic Construction (Viglacera) is the leading corporations in the field of building materials production and business investment in IT infrastructure industrial and civil. The products of building materials branded Viglacera Corporation as sanitary ware, ceramic tiles, granite tiles, ceramic tiles and clay, glass ... are widely consumed all over the country and export to many countries around the world. Aims at building and comprehensive development of activities, creation of a professional business unit to build and deploy business strategy Viglacera products is the inevitable trend.

Implementing this policy, Viglacera Trading Joint Stock Company was established by Decision No. 0103022396 by the Department of Planning and Investment in Hanoi issued on 14.02.2008, the way business organizations transition from form of self-production units and sales to the organization through a business unit responsible for formulating and implementing business strategies in a scientific-oriented sustainable development.

This is a new model, changing the way organizations do business in the scale of the Corporation and marked a transformation in the active development of Viglacera. With this new model, Viglacera Trading Joint Stock Company has adequately addressed in meeting the overall needs of our customers, built up a strategic business development general, sustainability and efficiency. A new business model building strategy showroom present system in many provinces to promote and introduce products Viglacera and better meet the constantly changing needs both in quality and quantity of customers will be crucial to the success of the Company

Facing the opportunities of this promising, the company will continue to invest and develop solutions for new markets to become a reliable partner always ready to serve the maximum needs of customers with a professional manner. The formation and effective operation of the Company's Business Viglacera successful assertion of Viglacera sustainable development.

DIVERSED PRODUCTS – PREMIUM FEATURES

Light show

Function and discharge button when power is lost.

Three functions wash: front, rear, massage.

Soft Close.

Sensor integrated into the seat lid to activate the automatic discharge function, drying,....

The light sensor automatically lights up at night.

Siphon water jet, Tornado flushing: Flushing waste with small water by high pressure from jet nozzle

- Seat temperature control, instant water heating, dry

- Automatic discharge before use.
- Wide range discharge, large pressure discharge.
- Economical discharge mode: Average 3.8L/time

- Tornado technology: Clean all stains at all angles the surface of the toilet with extremely strong gravity.

- Power supply with automatic interrupt sources

- *Required water pressure: 0.12-0.8MPa (Equivalent to 12 - 80m high water column).
- * Can use the push button to discharge water in case of lost power (Use at least 50 times).
- *Warranty period:
 - Ceramic part: 10 year
 - Electronic seat: 3 year

DIVERSED PRODUCTS – PREMIUM FEATURES

V-SMART V90

- Convenient use of product functions by remote control panel.
- Seat heating function, warm water wash.
- Three functions wash: front, rear, massage
- Built-in proximity sensor into cover to identify the user and activate the automatic discharge function, drying.
- Tornado technology: Clean all stains at all angles the surface of the toilet with extremely strong gravity
- Discharge without noise
- Can use the push button to discharge water in case of lost power (Use at least 50 times).
- Nano nung: Stainless and less-bacterial nozzle.

V-SMART V91

- Automatically open/close.
- Convenient use of product functions by remote control panel.
- Seat heating function, warm water wash.
- UV nozzle sterilization: The UV ray shines for 1 minute after every use and ensures 99.9% sterilization.
- Built-in proximity sensor into cover to identify the user and activate the automatic discharge function, drying.
- Prevents the backflow of waste material into the tank
- Deodorization function by natural deodorization technology
- Can use the push button to discharge water in case of lost power (Use at least 50 times).
- Nano nung: Stainless and less-bacterial nozzle.

V93.WB V93.GW V93.RW

V-SMART V93

- Convenient use of product functions by remote control panel.
- Seat heating function, warm water wash.
- Automatically discharge before use.
- Three functions wash: front, rear, massage
- Built-in proximity sensor into cover to identify the user and activate the automatic discharge function, drying.
- Tornado technology: Clean all stains at all angles the surface of the toilet with extremely strong gravity.
- Deodorization function by natural deodorization technology
- The light sensor automatic lights up at night
- Can use the push button to discharge water in case of lost power (Use at least 50 times)
- Nano nung: Stainless and less-bacterial nozzle.

V94.GW V94.RW V94.R

V-SMART V94

V-SMART V95

- Convenient use of product functions by remote control panel.
- Seat heating function, warm water wash.
- Automatically discharge before use.
- Three functions wash: front, rear, massage
- Built-in proximity sensor into cover to identify the user and activate the automatic discharge function, drying.
- Tornado technology: Clean all stains at all angles the surface of the toilet with extremely strong gravity.
- Deodorization function by natural deodorization technology
- The light sensor automatic lights up at night
- Can use the push button to discharge water in case of lost power (Use at least 50 times)

V-SMART V96

- Convenient use of product functions by remote control panel.
- Seat heating function, warm water wash.
- Automatically discharge before use.
- Three functions wash: front, rear, massage
- Built-in proximity sensor into cover to identify the user and activate the automatic discharge function, drying.
- Tornado technology: Clean all stains at all angles the surface of the toilet with extremely strong gravity.
- Deodorization function by natural deodorization technology
- The light sensor automatic lights up at night
- Can use the push button to discharge water in case of lost power (Use at least 50 times)
- Nano nung: Stainless and less-bacterial nozzle.

CONCEALED CISTERN WATER CLOSET

V55

- Wall hung pan, detachable siphone, soft Close V86.
- 3/6 litters dual fitting with pushing buttons
- Horizontal discharging.
- Nano non-stick cover layer on ceramic surface.

V51KA

- Wall hung pan, detachable siphone, soft close V86.
- 3/6 litters dual fitting with pushing buttons
- Horizontal discharging.
- Nano non-stick cover layer on ceramic surface.

WATER CLOSET

VARIOUS TYPE AND DESIGN:

- Viglacera provides you a various selection of different ranges of product:
- Conceal cistern Toilet: Wall a trendy and modern solution for space saving, reducing the weight floor, absolute waterproofing. This line of product is optional for villas, high standard apartment and public high level project.
 - One Piece Toilet: With the compact elongated bowl design and seamless tank, one piece toilets can make a bathroom more spacious and are easy to install and clean. With various choices of design, this product line is the best solution for high end apartment, commercial residentals, villas...
 - Two Piece Toilet: The slim design of two pieces toilets is suitable to use in economic commercial residentals projects or limited space bathroom

FIRED NANO ENAMEL TECHNOLOGY:

- Viglacera has created a technological breakthrough by introducing new successful technology on sanitary ware. The surface of Viglacera's sanitary ware becomes sustainable forever with this technology, anti-bacterial, anti-fouling..
- The bactericidal rate of fired nano enamel technology is 89% while the number of ordinary enamel is 5% to 10%

THE EXCEPTIONAL PHYSICAL AND MECHANICAL CHARACTERISTICS:

- Viglacera's sanitary ware reaches the same standard of physical and mechanical characteristics from Europe (water absorption, permeability ink), no crack in the natural environment.

ADVANCED FLUSHING TECHNOLOGY:

- Rim flushing technology combines with siphon JET creating maximum water saving, absolutely clean all staining inside toilet bowl.
- Pull-Push flushing technology: fast and strong soundless flushing

DRAWING OF CONCEALED FRAME

V199

- One piece water closet, soft close seat and cover V86.
 - 3/6 liters dual fitting.
 - System - vertical discharging.
 - Nano non-stick cover layer on ceramic surface.
- Vortex discharging system at rim for soundless and strong discharging

V51

- One piece water closet, soft close seat and cover V86.
 - 3/6 liters dual fitting.
 - System - vertical discharging.
 - Nano non-stick cover layer on ceramic surface.
- Pull-Push flushing technology: fast and strong soundless flushing.

V62

- One piece water closet, soft close seat and cover V68.
 - 3/6 liters dual fitting.
 - S-Trap.
 - Nano non-stick cover layer on ceramic surface.
- Rim flushing technology: maximizes water savings and clear any corner inside the bowl

V45

- One piece water closet, soft close seat and cover V68.
 - 3/6 liters dual fitting.
 - System - vertical discharging.
 - Nano non-stick cover layer on ceramic surface.
- Pull-Push flushing technology: fast and strong soundless flushing.

V42

- One piece water closet, soft close seat and cover V42.
 - 3/6 liters dual fitting.
 - S-Trap.
 - Nano non-stick cover layer on ceramic surface.
- Pull-Push flushing technology: fast and strong soundless flushing

V39M

- One piece water closet, soft close seat and cover V39M.
 - 3/6 liters dual fitting.
 - System - vertical discharging.
 - Nano non-stick cover layer on ceramic surface.
- Pull-Push flushing technology: fast and strong soundless flushing.

V41

- One piece water closet, soft close seat and cover V86.
 - 3/6 liters dual fitting.
 - S-Trap.
 - Nano non-stick cover layer on ceramic surface.
- Pull-Push flushing technology: fast and strong soundless flushing.

V38

- One piece water closet, soft close seat and cover V38M.
 - 3/6 liters dual fitting.
 - System - vertical discharging.
 - Nano non-stick cover layer on ceramic surface.
- Pull-Push flushing technology: fast and strong soundless flushing.

ONE PIECES WC

V37M

- One piece water closet, soft close seat and cover V39M.
- 3/6 liters dual fitting.
- System - vertical discharging.
- Nano non-stick cover layer on ceramic surface.

- Pull-Push flushing technology: fast and strong soundless flushing.

C0504

- One piece water closet, soft close seat and cover V68.
- 3/6 liters dual fitting.
- System - vertical discharging.
- Nano non-stick cover layer on ceramic surface.

V35

- One piece water closet, soft close seat and cover V86.
- 3/6 liters dual fitting.
- System - vertical discharging.
- Nano non-stick cover layer on ceramic surface.

- Pull-Push flushing technology: fast and strong soundless flushing.

C109

- One piece water closet, soft close seat and cover V38M.
- 3/6 liters dual fitting.
- System - vertical discharging.
- Nano non-stick cover layer on ceramic surface.

ONE PIECES WC

BL5M

- One piece water closet, soft close seat and cover V39M.
- 3/6 liters dual fitting.
- System - vertical discharging.
- Nano non-stick cover layer on ceramic surface.

BTE

- One piece water closet designed for children
- 3 liters single fitting-vertical discharging
- Standard seat and cover.

TWO PIECES WC

VI107

- Two pieces water closet, soft close seat and cover V37M.
- 3/6 liters dual fitting.
- Vertical discharging.

VT34

- Two pieces water closet, soft close seat and cover V116.
- 3/6 liters dual fitting.
- Vertical discharging.

- VI188

- Two pieces water closet, soft close seat and cover V116.
- 3/6 liters dual fitting.
- Vertical discharging.

VI66

- Two pieces water closet, seat and cover V1102.
- 3/6 liters dual fitting.
- Vertical discharging.

TWO PIECES WC

VI28

- Two pieces water closet, seat and cover V1102.
- 6L Single fitting .
- Vertical discharging.

VI77

- Two pieces water closet, seat and cover V1102.
- 6 liters single handle fitting.
- Vertical discharging.

VT18M

- Two pieces water closet, seat and cover V1102.
- 3/6 liters dual fitting.
- Vertical discharging.

VI44

- Two pieces water closet, seat and cover V1102.
- 6 liters single handle fitting.
- Vertical discharging.

TWO PIECES WC

VI66P

- Two pieces water closet, seat and cover V1102.
- 3/6 liters dual fitting.
- Horizontal discharging.

VT18MP

- Two pieces water closet, seat and cover V1102.
- 3/6 liters dual fitting.
- Horizontal discharging.

VI20P

- Two pieces water closet, seat and cover V1102.
- 3/6 liters dual fitting.
- Horizontal discharging.

VI3P

- Two pieces water closet, seat and cover VI3.
- 3/6 liters dual fitting.
- Horizontal discharging.

WASH BASIN

Viglacera provides tens of different wash basin designs which can meet the diversity of market and clients.

- Wall hung basins: Basins are hung at the suitable height for convenient using. Some items combine with half or long pedestal to both support for basin and cover the faucet siphon that make the basin more beautiful and perfect

- Counter basins: These kinds of basins are suitable to set on the marble stone table, wall shelves or cabinets.

WASH BASIN

BS415

- Counter top Basin.
- Fired nano enamel technology
- Ceramic table BS875 (Size: 750 x 500mm).
- Ceramic table BS860 (Size: 600 x 450mm).
- Suitable installation with faucets VG126, VG125.

CD15

- Counter top Basin.
- Fired nano enamel technology
- Suitable installation with faucets VG126, VG125.

CD17

- Counter top Basin.
- Fired nano enamel technology.
- Suitable with faucets VG143.1, VG126, VG125.

CD16

- Counter top basin.
- Fired nano enamel technology.
- Suitable with faucets VG143.1, VG126, VG125.

V72

- Counter top basin.
- Fired nano enamel technology.
- Suitable with faucets VG143, VG1023, VG114, VG112.

CD19

- Counter top basin.
- Fired nano enamel technology.
- Suitable with faucets VG111, VG1023, VG168, VG119.

WASH BASIN

V42M

- Counter top basin.
- Fired nano enamel technology.
- Suitable with faucets VG112, VG1023, VG114, VG111.

CD20

- Above counter basin.
- Fired nano enamel technology.
- Suitable with faucets VG143.1, VG126, VG125.

CD21

- Above counter basin.
- Fired nano enamel technology.
- Suitable with faucets VG1023, VG111, VG102.

CD1

- Above counter basin.
- Fired nano enamel technology.
- Suitable with faucets VG111, VG1023, VG102.

CD6

- Above counter basin.
- Fired nano enamel technology.
- Suitable with faucets VG141.1, VG126, VG125.

CA2

- Under counter basin.
- Fired nano enamel technology.
- Prevent water splashes when used.
- Suitable with faucets VG1023, VG1028.1.

WASH BASIN

V24

- Above counter basin.
- Fired nano enamel technology.
- Suitable with faucets VG1028, VG1028.1, VG1023, VG143.

V23

- Wall hung basin.
- Fired nano enamel technology.
- Suitable with faucets VG1023, VG143, VG112.

V51

- Wall hung basin with half pedestal.
- Fired nano enamel technology.
- Suitable with faucets VG119, VG1023, VG102.

V50

- Wall hung basin with half pedestal.
- Fired nano enamel technology.
- Suitable with faucets VG112, VG1028, VG1028.1.

V39

- Wall hung basin with half pedestal.
- Fired nano enamel technology.
- Suitable with faucets VG119, VG1023, VG102.

V15

- Wall hung basin with half pedestal.
- Fired nano enamel technology.
- Suitable with faucets VG111, VG102.

CHẬU RỬA

VTL3 + VI5

- Wall hung basin (VTL3), half pedestal (VI5).
- Fired nano enamel technology.
- Suitable with faucets VG302, VG315, VG368.

BS409 + BS502

- Wall hung basin (BS409), half pedestal (BS502).
- Suitable with faucets VG168, VG111, VG114.

VTL3N + VI1T

- Wall hung basin (VTL3N), long pedestal (VI1T).
- Suitable with faucets VG302, VG315, VG368.

VTL2 + VI1T

- Wall hung basin (VTL2), long pedestal (VI1T).
- Suitable with faucets VG114, VG111, VG102.

BIDET

VB50

- Bidet.
- Nano non-stick cover layer on ceramic surface.

VB5

- Bidet.

VB3

- Bidet.

FAUCET & SHOWER

Viglacera's faucets and showers with innovative design and advanced technology create the unique series of faucets and showers. These products are designed meticulously to each detail. The diversity modern coating technology provides durability for faucet products that can meet all bathroom requirements.

OUTSTANDING ADVANTAGES OF VIGLACERA'S FAUCETS AND SHOWERS:

- The cartridges are imported from CERAMTECH-Germany with ceramic sliding surface. Durable using over 10 years (equal to 500.000 opened-closed times).
- The aerators are imported from NEOPERL-Germany with high quality plastic withstanding the temperature up to 140 degrees celcius in the long time. The structure of product is designed as honeycomb stabilized the water flow which help to create soft water flow, reduce noise and save water.
- Washer is used with high elasticity, abrasion resistance, temperature resistant up to 90 degrees.
- Faucet body is casted by 100% pure brass
- Protected by 1 red brass layer, 2 niken layers and 1 chrome layer with total thickness up to 22 µm.
- Dual twisted outlet hose for shower is covered by inox 304.

FAUCET & SHOWER

VG593

- Built-in-wall shower with 2 shower heads.
- Shower head with 3 modes.

VG592

- Built-in-wall shower with 2 shower heads.
- Shower head with 3 modes.

VG591

- Built-in-wall shower with 2 shower heads.
- Shower head with 3 modes.

VG143

- Mixing basin faucet .

VG112

- Mixing basin faucet.

VG105 (VSD1012)

- Mixing basin faucet.

VG143.1

- Mixing basin faucet.

VG1023 (VG1023M)

- Sensor basin faucet - battery used.

**VG1028 (VG1028C)
VG1028.1 (VG1028M)**

- Sensor basin faucet - battery used.
- + VG1028: one water line - cold.
- + VG1028.1: mixing water line.

FAUCET & SHOWER

VG541.1

- Mixing shower with adjustable bar.
- Shower head with 3 modes.
